Flowers from Bulbs

TULIPS, Daffodils, Hyacinths, Crocus or any of the different bulbs that are available this year, are of the easiest culture whether grown in the House, Greenhouse or Garden. Given good soil, heat, moisture and light, these harbingers of Spring will bloom profusely from November until April in the average dwelling, while those that have been planted in the garden will continue the pageant until June.

Terms of Business: All prices quoted herein are based on cash, though we have opened accounts with our regular customers, among whom we would be pleased to include you. The goods are offered subject to being unsold on receipt of order. Prices frequently change as the season progresses and we are sometimes obliged to change them without notice.

We request that orders from parties hitherto unknown to us should be accompanied by cash or satisfactory references.

Claims must be made upon receipt of goods so that if the mistake is ours, adjustment may be made promptly.

Your patronage is respectfully solicited.

PLANT BLUE PHLOX WITH THE BREEDER TULIPS
AND SEE WHAT HAPPENS

Single Early Tulips

These are universal favorites, and the most popular and attractive flowers for early Spring display in the garden or for Winter blooming in the house or conservatory. They are perfectly hardy and of easiest culture in any good garden soil, seldom failing to give the greatest satisfaction. When massed in beds or large clumps, the best effect is obtained. How to plant: Set the bulbs 4 inches deep and 5 inches apart. Cover with salt hay after first frost.

The varieties marked with a star (*) are good for forcing.

Handsome Hyacinths

For House and Gardens

Culture in Pots or Pans. These may be planted any time from September to November, though early planting as a rule gives the best results. Firm, heavy bulbs should be selected, and, if to be planted singly, use a 5-inch pot or four bulbs of one variety to an 8-inch seed pan. A piece of broken pot placed over the hole and 1 or 2 inches of Sphagnum Moss placed on this, make excellent drainage. A light, rich soil is essential; one made up of one-third rotted cow manure, one-third rotted sod, and the balance of leafmold and sharp sand, is excellent. When planting, break off all outsets, if any, at the base of the bulb, and have the top of the bulb just below the soil, and the soil about an inch below the top of the pot; give a good watering, put in a cool place and cover with 5 or 6 inches of sand or sifted coal ashes; this prevents the bulbs from rising while they are making roots and holds the moisture. After eight weeks the roots should be strong enough to allow them to be brought to the light and into the room where they are to bloom.

Narcissi or Daffodils

Among the most beautiful and fragrant of our hardy Spring flowering bulbs the Narcissi enjoy great popularity and occupy a very prominent place in the world of flowers, doing well in almost all soils and situations, for naturalizing among the grass planting among the shrubbery, on the borders of ponds and streams, and in formal beds. For house or greenhouse culture they are equally desirable, planted in pots or bulb pans, several bulbs of one variety in each, and treated as recommended for Hyacinths.

Fruit for the Home Garden

Strawberry Plants

POT GROWN FOR SUMMER AND FALL PLANTING

DR. VAN FLEET'S HYBRIDS

Early Jersey Giant. The earliest strawberry bearing large fruit. "A strawberry without a fault." Per dozen, \$1.25; per 100, \$8.00.

John H. Cook. A second early variety of exquisite quality and an enormous cropper. It is unsurpassed both for the home table and as a market variety. Per dozen, \$1.50; per 100, \$10.00.

Edmund Wilson. A giant in every way. The fruit is dark in color and of unequalled quality for the home table. It is too good to ship. Per dozen, \$1.50; per 100, \$10.00.

OLD TIME FAVORITES

Brandywine. Produces large crimson fruits in midseason. Highest quality. per dozen, \$1.00; per 100, \$7.00.

Marshall. The most popular variety for home gardens, where the soil is rich. A real table treat when well grown. Per dozen, \$1.00; per 100, \$7.00.

Wm. Belt. An all-season variety. Best quality, and succeeds everywhere. Per dozen, \$1.00; per 100, \$7.00.

LOVETT'S ALL SEASON EVERBEARING STRAWBERRY

We truly believe this is the most valuable Strawberry ever offered. In producing it by scientific hand pollenization (by crossing one of the now famous Van Fleet hybrids and the everbearing variety, Superb) Mr. J. A. Kemp, the originator, has given us one of the most valuable varieties ever introduced. It begins in June, and even if the June crop were all one could expect of this variety, it would be a most remarkable acquisition.

But June just opens the season. It bears large quantities right through the summer and fall the crop being greater by far than that of the other everbearing varieties. We know of no other variety that will produce the crop of fruit during the hot dry summer months which this sort does; while in size the individual berry equals the best of the June varieties.

Price—The supply is limited, but we have several thousand well-rooted pot-grown plants. \$4.00 per dozen; \$25.00 per 100.

GREENHOUSE GRAPE VINES

10 best varieties. Planting canes, \$7.50 each. Fruiting canes, \$12 each.

Fruit Trees

APPLES

Gravenstein, Baldwin, Northern Spy, King. Extra strong. \$1.75.

PEARS

Anjou, Bartlett, Duchess, Seckel. Extra strong. \$1.75.

PEACHES

Crawford's, J. H. Hale, Elberta (Freestone). Extra strong. \$1.50 each.

Plums, Cherries, Quinces, in variety. Extra strong. \$1.75 each.

SMALL FRUITS

Currants. Everybody's. Large sparkling berries. Strong plants, 40c each; \$4.00 per dozen.

Gooseberries. Oregon Champion. Large, amber yellow. Strong plants. 50c each; \$5.00 dozen.

Raspberries. La France. Large juicy fruits. Transplanted plants, 75c each; \$7.50 dozen.

PURE GROUND BONE. 5 lbs., 60c; 10 lbs., \$1.00; 100 lbs., \$5.00

Use plenty of bone-meal when setting out fruit trees, bushes or plants.
